- Eddie 954.588.0843: 20' main line under building
- **Miami:** Rene 786-299-2951: installed 17' laundry line
- Casey 954-253-3027: installed 32' from master bath toilet to cleanout
- Greg 954-849-2415: installed 40' main line from cleanout to kitchen and 24' bathroom branch line
- Joseph 954-881-4148: installed 41' of cast iron main drain serving 2 bathrooms
- **Orlando:** Donnie 407-474-0960: installed 119' mainline under office complex
- **Cooper City:** Zaida 954-290-9213: installed 51' of main drain under slab and 12' kitchen branch drain line under slab
- **Coral Gables:** Carol 905-449-9060: installed 28' main line and 32' bathroom branch line. Crumbled vertical cast iron stack replacement from roof down to horizontal section of re-installed pipe underground

- **Venice:** Carol 570-350-8847: installed 66' of cast iron main drain 6' and 7' of toilet branch lines
- **Miami:** Local contact: Kyle 614-309-2563 / Customer is Sally 614-519-4540: installed 45' of main line, 22' laundry and 12' bathroom branch lines
- Ryan and Linda 954-995-3210: installed 85' of ALL cast iron drains under slab
- **Venice:** Barb: 941-730-8316: installed approximately 2 x 15' of cast iron drains under slab
- David 917-667-9698: installed approximately 47' of main line and 31' of branch cast iron drains (2 bathrooms)
- **Ft. Lauderdale:** Chris: 954-817-6746: installed approximately 48' of cast iron main drain under slab; 52' of cast iron laundry branch drain; 32' Lateral from house to street edge
- **Ft. Lauderdale:** Stacey 561-305-0456 (Harry 954-258-0600 is tenant): installed 28' of cast iron main drain under slab to cleanout in concrete 17' of branch drain
- **Hollywood:** Susanne 954-584-3592: installed 41' of main line, 35' branch line
- **Oakland Park:** Vibeke 954-394-9279: installed 41' of cast iron main drain under slab and 13' of kitchen branch line

- **Dania Beach:** Maria (local contact is Victor unit 10 ; (603) 703-7064)) Ronola Apartments Condominium WEST BUILDING: Trenchless pipe restoration of 11 x 16' cast iron stacks and 175' cast iron main drain under slab
- **Coral Gables:** Tracy 305-283-4064: installed 60' of toilet branch line;
- **West Palm Beach:** Beatriz and Ruiz 561-281-9663: installed 48' of main line and 35' of kitchen branch line drains under slab, kitchen access hole, and concrete replacement
- **Ft. Lauderdale:** Al 954-696-7413: installed 28' of lining in toilet branch line, grout/scale removal in same pipe
- **Pembroke Pines:** Rick 954-655-0990: installed 39' from bathroom to cleanout
- **Lighthouse Point:** Nick 954-347-7544: installed 30' of cast iron main line
- **Miami:** Pat and Lee 305-989-8622: installed 90' of main line from pool bathroom to cleanout (plus toilet branch line)
- **Miami:** Rolando 305-801-8880: installed 47' main line
- Gabriella 561-251-3328: installed 58' main line
- **Plantation:** Jason 305-609-7046: installed approximately 35' of main, 32' of branch and 11' kitchen cast iron drains
- **Cape Coral:** Rhonda 954-257-6044: installed 22' kitchen branch line

- Maria 305-479-4664: installed all drains under slab, approx. 84'
- **Miami Beach:** Jim 305-968-0190: installed 15' of kitchen drain, and added 4" clean out outside of kitchen
- **West Palm Beach:** Luis 786-554-6065: installed 25' of cast iron drains under slab from toilet to cleanout , plus kitchen line
- **Miami:** Warren 305-978-9646: installed 90', all pipes under slab
- **Miami:** Doug 786-999-9005: installed 105' of main line cast iron drains and 43' bathroom branch line under slab
- **Jupiter:** Ron 561-745-3005: installed approximately 47' of cast iron drains under slab from main bathroom to cleanout
- **Miami:** Jason 248-444-4509: installed about 4-5' of lining
- Vicki 305-343-5286: installed up to 20' of kitchen branch line drains under slab
- Tommy 239-851-3696: installed 55' main line
- Janice 303-525-9528: installed 120' of pipe lining under whole house
- **Plantation:** Yvonne 954-638-7900: installed 55' of main line and bathroom branch line
- **Pompano Beach:** Gustavo's 954-817-0139: installed about 40' of main line
- **Lake Worth:** Owen 203-994-0054: installed 50' stack
- **Margate:** Tony 954-993-4851: installed 65' toilet and main line
- **Miami:** John 305-302-6900: installed about 65' of main line
- **Coral Springs:** Travis 757-810-4745: installed about 50' branch and 25' main line under slab
- **Pompano Beach:** Todd 954-536-9812: installed 80' under slab
- **Boca Raton:** Gail 561-716-1123: installed 28' lateral to road
- **Boca Raton:** Lisa 954-415-1871: installed 30' of main line
- **Dunedin:** Lizz 859-816-7269: installed 30' of branch line
- **Sarasota:** Larry 469-387-0197: installed 45' main line

Older Pipe Lining Jobs: 2004 - 2015

St. Petersburg: George's Allibi Bar & Grill, Bill 727-563-4710: The drain pipes serving the main bar were rusted so badly from the soda fountain carbon dioxide bubbles (carbonic acid) that the soil was falling into the void where the pipes used to be! Physical replacement was estimated to take two weeks, but we relined the pipes in one day!

Miami: Alex 786-258-6086: 60' main line and 50' of kitchen and laundry branch lines. William and Susanna were told by their plumber that their floors had to be opened up to remove and replace all the plumbing pipes. We determined that only 3 pipes were severely corroded and cracked, which we re-lined and fixed permanently in just 3 days for 40% of the cost of excavation.

Boca Raton: Howard 561-350-7899: 45' of kitchen line, 25' of laundry line and 40' of main drain. A prominent doctor in Boca Raton had a stunning home plagued by repeated backups. Plumbers wanted to dig up his matching floors to replace pipe. We re-lined all his pipes in 3-4 days for 25% of the cost of excavation, and he was able to stay in his home and use his pipes each evening till the next morning.

Coral Gables: Albert: 45' of sewer main line. Also a doctor but in Coral Gables, where cast iron drains are in general in terrible shape, was seriously distraught when he found out his main line was cracked. They have a new tiny baby, and living in a hotel for a few weeks was not an option. We re-lined his pipe in 1 day, and his last words to us was a text: "I could kiss you guys, my wife is so relieved".

Lake Worth: Janet 561-662-2848: 20' of main line. Janet works for Howard (above). She was having repeated backups in her guest bathroom, and the guests felt unwelcome! We relined her pipe in 1 day at a price she was seriously happy to pay.

Fort Myers: Bill 502-807-2456: 65' of 3" main drain. Bill was experiencing backups and foul odors and a video inspection showed broken cast iron drains and bellies in the pipes were the cause. The plumbers wanted to dig under the house and replace ALL the drains, about 130' in length. Our video inspection showed only 65' of main drain was actually compromised, which we re-lined in 2 days. The slippery bellies remained, but there were no backups and no odors ever since.

Tampa: Gary 813-323-3158: 17' of bathroom drain. Gary's elderly mother was having one of her bathrooms back up frequently. The plumber wanted to tear up the floors and replace the toilet drain going to the main line because of a belly (depression) in the pipe. But that meant all the tile would have to be replaced. The jackhammering and mess would prove to be too much for his mom, so we re-lined the pipe in 1 day for half the cost.

Coral Springs: Mildred 954-755-1933: 54' cast iron sewer main line. Mildred had a terrible backup ruining her floors and furniture. Pipe video inspection showed her sewer main line had holes and cracks which were causing the backups. Plumbers wanted her to move out for 3 weeks to excavate her house, costing around \$22,000. We re-lined her pipe in 2 days using a 100-year pipe lining saving her 78% in costs.

Fort Lauderdale: Jason 954-557-7077: 58' of 3" and 4" cast iron drains. Plumbers video inspected pipes and recommended excavation of entire house to replace plumbing. The family would have to vacate their home for 2-3 weeks, and the cost would run approximately \$30,000. We relined all the pipes in 2 days at 30% of that cost.

Miami: Myra 954-733-7233: 120' of 3" and 4" cast iron sewer pipes. Myra had a plumber tell her he needs to dig up their marble floors and replace all the old cast iron pipe due to cracks and bellies causing backups. His estimate was for \$35,000. We cleaned and relined all the pipes in 3 days at half the cost using a 50-year warranty lining. All her problems stopped.

Miami: Juan 954-336-4302: 30' of 3" cast iron under house. Juan had recently renovated his house with new floors. His toilet kept backing up into the bath and shower. Video showed cast iron sewer pipe had rusted floor which was completely missing. The remaining cast iron walls were catching on debris. We re-lined his pipe in one day.

Hollywood: Allen 954-931-2611: 35' of 3" cast iron under house. A video inspection showed that Allen was having repeated backups from debris getting caught on roots growing into cracked cast iron pipe under his house. We arrived 8am, left 5pm, and he had a new 100-year liner inside his old pipe.

Fort Myers: Carla 239-707-0659: 40' of sewer lateral pipe going to road. Carla had repeated backups in the sewer pipe going from then house to the road. Roots were growing into the

old cast iron pipe, causing repeated backups. The paved driveway and large tree prevented excavation, so we cleaned and relined the pipe in one day.

Coral Gables: Marcel 305-510-3005: 30' of 3" sewer main line & 15' of 2" kitchen drain. This beautiful house had missing pipe floor in the cast iron main drain and kitchen line. The plumbers wanted to use a back hoe to remove the floor! We re-lined their pipes in two days, no excavation.

Ft Lauderdale: Freda 954-471-6507: 24' of 4" sewer main line. This retired lady has her grandson and his daughter living with her. Excavation to replace pipes meant living in a hotel for 3-4 weeks. We relined her sewer main pipe in one day!

Ft Lauderdale: Marion 954-821-6271: 64' of 4" sewer main line. Relined her sewer main pipe that contained bellies and had cracked pipe walls and roof.

Ft. Myers: Josh 239-707-5561: 27' of 4" sewer main line. This rental property had repeated backups from root growth and rough cast iron surfaces. Plumbers kept snaking out the line each 3 weeks at \$275 per visit. The tenants threatened to leave. We relined the pipe in one day, problem solved.

Naples: Gary 239-433-3165: 43' of 4" sewer main line. A pipe video inspection revealed the bottom of his 4" cast iron drain pipe had corroded away. The home had been recently remodeled with new bamboo flooring. Within 2 days we had relined the 2" kitchen line and also the adjoining 4" trunk line that serves the entire house.

Largo: Crystal 727-501-6992: Repeated backups from rusted cast iron sewer main line. Cleaned and re-lined in 2 days, no excavation.

St. Petersburg: Lynn: 770-540-5530: 28' of 4" sewer main line. 45 year old cast iron sewer pipe with cracks in floor allowed water to run out into soil, leaving no water to push waste out to street sewer system. Pipe lining in one day solved the problem permanently.

Hallandale: Amit 305-767-4900: 4" cast iron sewer main line. 3 renters experiencing repeated sewer blockages. Property owner was told by plumbers to dig up 75' of 4" cast iron

sewer pipe to get rid of the bellies, costing \$45,000 which would take 2 weeks. We relined the pipe in one day saving him 78% in costs. No trouble ever since!

Pompano Beach: Ed 954-663-5974: 45' of 4" sewer main line. 60-year old luxury home experiencing repeated backups. Plumbers wanted to dig tunnels under house to replace sewer pipes. Homeowner concerned about soil compaction and possible settlement and slab cracks afterwards. Estimated cost: \$65,000, duration – 2 weeks. We re-lined the pipe in one day saving her 76% in costs.

Tampa: Greg 813-884-1762: 2" Kitchen Line – Missing Cast Iron Pipe Floor. 2" cast iron kitchen pipe floor had completely corroded away and was causing debris to become lodged on the edges of the remaining pipe. The plumbing company suggested excavating the entire 50' section of floor to replace the pipe, which was estimated to take 1 week and cost \$11,000. We relined it in 1 day for saving her 78% in costs.

Ocean Reef (Key Largo): Bob 305-367-0011: Sewer Lateral Pipe Lining. During high tide the ocean was leaking into the cracked clay sewer lateral pipe going from the house to the sewer main in the road. This infiltration increases sewer processing costs. Due to traffic, high water tables, and the soil made of coral rock, excavation was certainly not an option. Digging and water control would run \$15,894. The city hired us to reline the pipe during low tide saving him 67% in costs.

Tampa: Rick 813-514-3914: 3" and 4" Cast Iron. Video inspection showed cast iron pipes had numerous cracks along the floor and several "bellies". The plumbing company suggested they excavate the whole home to replace the pipe and concrete floor. The new wood flooring would however have to be replaced thereafter. Total cost \$45,000. Trenchless Pipe Lining re-lined all of his 3" and 4" sewer pipes in two days saving him 68% in costs.

Tampa: Chris 813-918-0014: Clay and Cast Sewer Iron Pipe. This house was experiencing repeated sewer backups. The snake auger would open the pipe by pulling out large wads of roots that had grown into the pipe under the house. The plumbing company preferred to excavate the home and landscaping, costing around \$25,000 and would take about a week. In addition, excavating under the oak tree would destabilize the whole tree. Pipe lining took just one day and saving him 56% in costs.
